(1) English Language (2) Hindi Language

Truth is a divine word. Duty is divine law. – D. C. Mackintosh
Class III

AIMS AND OBJECTIVES

MORAL EDUCATION:

1. To enable the students to develop good habits and character right from childhood.
2. To enable the students to learn basic manners and etiquette.
3. To enable the students to know and practice certain values like caring, sharing, generosity, friendliness, thankfulness, cooperation etc. during their growing years.
4. To enable them to appreciate the beauty of the creation and to be grateful to its creator (God).

ENGLISH:

1. To develop in pupils the ability to express themselves in intelligible and acceptable forms of English.
2. To encourage fluent self-expression – in speech and writing.
3. To develop the habit of micro – skills of listening.
4. To develop the ability to read aloud intelligibly and to read silently with understanding.
5. To form enduring reading habits and to extend the range of their ideas by the reading of factual and imaginative writing.
6. To enable the students to appreciate the literary work of various writers.
7. To enable the students to develop their phonetics, pronunciation and voice modulation skills.
8. To develop an elegant cursive handwriting.

HINDI:

1. To impart the knowledge of the structure of the language.
2. To enable the students to use idioms and phrases appropriately through their regular use and practice.
3. To develop the ability to use difficult literary terms appropriately and pronounce them correctly.
4. To enable the students to understand and to speak flawlessly.

MATHEMATICS:

1. To develop the skills in mathematical computations and calculations.
2. To develop a scientific attitude to analyse any situation logically.
3. To develop the ability of presenting a thought with exactness and brevity.
4. To enable the pupils to put forth arguments when convinced about their correctness without hesitation.
5. To help the children to appreciate the geometrical and symmetrical shapes of the natural objects.

SCIENCE:

1. To develop the child's creative potential.
2. To enhance the observational and drawing skills of the child.
3. To develop a scientific attitude in the learner.
4. To acquaint the child with the wonderful achievements of science.

Truth is a divine word. Duty is divine law. – D. C. Mackintosh

Class III

SOCIAL STUDIES:

1. To help the children to understand the world they live in.
2. To develop the qualities of cooperation, generosity and sympathetic outlook.
3. To develop the love for nature, travels and knowledge about other countries.
4. To develop international understanding.
5. To provide the learners with an understanding of past events and persons and their roles in shaping present day lives and a visualisation of future changes.
6. To provide knowledge of human systems in areas of government and culture.

COMPUTATIONAL THINKING & ICT:

1. To develop logical and analytical thinking.
2. To enable the students to comprehend the concepts and practices of computer science.
3. To help the students to comprehend and to apply the fundamental concepts of programming.
4. To develop the detailed insight of applications of computer.
5. To develop the ability to solve problems using both structured and modular approach.
6. To create an awareness of ethical issues related to computing.
7. To appreciate the implications of computer in contemporary society.
8. To acquire knowledge on theoretical concepts, applications and programming aspects of computer science.
